The café honors the memory of Dvir Karp, a chocolatier tragically murdered at his kibbutz in front of his children.

Dvir founded his chocolate brand in 1996 and opened the café in 2012, leaving behind a beloved culinary legacy. His wife, Reut Karp, chose the theme of HEALING-ריפוי- and worked with top chocolatiers to recreate his original recipes.

CREATION

NETOFA
— Estate Winery Bass Galilee —

NETOFA WINNERY

Netofa Winery, established in 2006, is a boutique winery that embodies a passion for wine and a love for the land. It produces elegant, high-quality wines with refined bodies and complex flavors. The vineyards are located at the foot of Mount Tabor in the Lower Galilee.

During the war, the winery opened its visitor center to support security forces, evacuees, and volunteers. Like many other wineries in the country, it has faced significant losses. Despite these challenges, the founders traveled south to assist farmers with manual labor and continued wine production, believing that CREATION-יצירה was essential to life.

You can enhance your package with:

- Latour Boutique Red or White Wine (2023)
- Optional upgrade: Rosé wine or other available premium wines.

We are committed to making the most of raw materials and fruits unsuitable for direct marketing. Our delicious, shelf-stable products, such as jams, are made without preservatives or artificial colors but are infused with love.

Our guiding principle is LIFE-חיים. Despite the significant damage our farm sustained on October 7, 2023, we have chosen to rise again and embrace what nature teaches us best: how to recover. There is no other option.

Elkana Levi,
Still Life in Respite 70X50, Oil on Canvas 2024

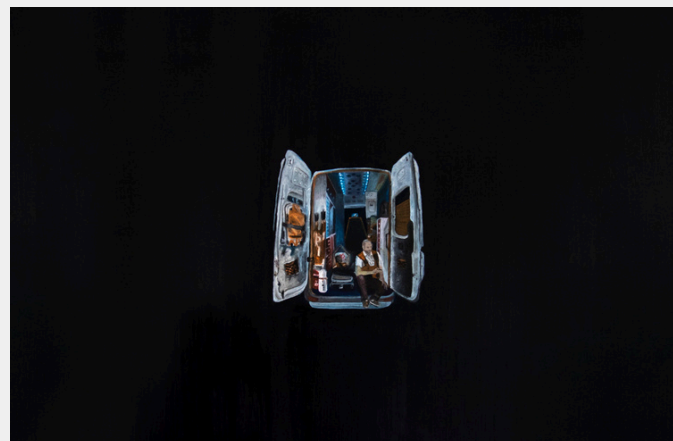

"in the aftermath of the October 7 attacks, I was called for reserve duty up north and knew I had entered a great survival war that we had not experienced for years.. as a result, the desire to survive grows... As an artist, I feel my mission is to be part of the Israeli cultural world and tell the country's story..."

Elkana chose LIFE-חיים as a driving force for him as fighting at the forefront out of the understanding that fighting is forced upon us, which is undesirable and accompanied by complex action that stems from the sanctity of life.

RENEWAL

Noa Alon

"I chose the concept of RENEWAL-התחדשות. Renewal signifies our ability to adapt, learn from the past, and rebuild a new version of ourselves."

Just as nature blooms after a cold winter, we too can experience growth and fresh beginnings after difficult times. Renewal reminds us that every challenge offers an opportunity to start over, adding new layers to our existence rather than erasing the past."

Noa Alon

Noa Alon is a Muralist, Painter, and Illustrator based in Tel Aviv.

Graduated with a Bachelor's degree in Animation (2011) and a Master's in Visual Communication (2019) from the Bezalel Academy of Arts and Design. Her works have been exhibited in solo and group exhibitions in galleries and museums in Israel.

GROWTH

Ruth Eliav
Bloom, oil on wood, 40.5X30 cm, 2010

"The feeling of immense loss that we, as a people and a nation, have experienced in the face of a growing natural world reminds me of nature's tremendous power and our capacity as individuals to be part of it. This world continues to expand, even amidst deep crises. Every time I hear about a soldier who was injured but fought to return to life or a family that lost loved ones yet found the strength to persevere, I am reminded of plants and their remarkable ability to grow despite adversity. It makes me wonder if this resilience is inherent in all of us."

Ruth Eliav

Graduate of the "Jerusalem Studio School" - Israel Hirschberg's workshop for painting and drawing (2005), holds an MA in art policy and theory, Bezalel (2018), participated in an artist residency at the International School of Art in Umbria -Italy (2004) and Jss in Civita, Italy (2019).

OBSERVATION

Noa Mishkin
Trees, 2023, colored pencil and pen

"I experienced the war most strongly through my partner Noam's reserve service, who serves in the Israeli army and spent about three months in Gaza. For the first time, I truly felt the fragility of my good and comfortable life, and my concern for him took over every moment.

I chose the concept of "OBSERVATION"-התבוננות: We must observe the beauty, the small details, and the life still around us and turn them into art that grounds us and allows us, despite everything, to create and rejoice."

Noa Mishkin

Noa Mishkin is an illustrator, comics artist, and designer from Jerusalem.

A graduate of the Visual Communication Department at Bezalel Academy of Art and Design in Jerusalem, she is the recipient of the Dorothy Kerts Comics Award for 2021 and the Yossi Stern Award for Achievements in the Field of Illustration for 2021. She illustrates books, newspapers, and comics for children and adults.

CONTINUITY

Palms and Tiger

Palms and Tigers

MIGRATION

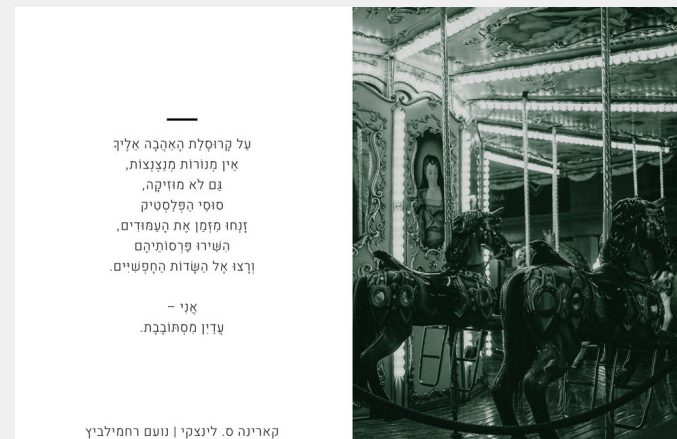

"...Since the events of 10/7, MIGRATION-הגירה has become an inseparable part of our identity, from physical migration in which thousands of people were required to leave their homes, to an internal migration that seeks to ask questions of essence and identity, one that gives place to the pain we feel regarding the past.

Karina S. Lintzky

Her poems have been published in Haaretz, Makor Rishon, and national poetry magazines.

"On that Sabbath, our house was broken into and desecrated, leaving my sense of security completely shaken, if not destroyed. Since then, we have lived in a HOME-בית with shattered windows and cracked walls. We are working individually to restore the four outer walls of the house and coming together to repair our shared walls. My book, 'The Advantage of Home,' explores the concept of home from various perspectives and seeks to find a sense of homeliness in the most unexpected places."
